Atty Dkt No. LEAR 0660 R

Reply to Office Action of March 21, 2005

**Amendments to the Specification:**

*Please amend the paragraph (section) beginning in column 1, at line 45 as shown below:*

The present invention overcomes the above-reference problems associated with prior overhead console assemblies by providing an overhead console assembly for a vehicle having accessory module compartments removably secured to the overhead console for storing materials within the compartments. In one embodiment of the invention, ~~[[T]]~~ the overhead console assembly may include~~[[s]]~~ a first console housing disposed ~~[[to]]~~ on [an inner surface of a structural member of] a headliner assembly mounted to a roofline of a vehicle, a second console housing disposed on [the structural member of] the headliner of the vehicle spaced apart from the first console housing and a center console housing disposed between the first and second console housings. At least one accessory module for storing materials within the overhead console of the vehicle is removably secured to the center console housing. The at least one module includes a housing, a storage area defined within the housing to retain the materials stored there within, and at least one securing member coupling the at least one module to at least one securement surface provided on the center console housing.
